

ENGINEERING INTEGRITY SOCIETY

President: Dr Peter Watson, OBE

DURABILITY & FATIGUE GROUP
SIMULATION, TEST & MEASUREMENT GROUP
SOUND VIBRATION & PRODUCT PERCEPTION GROUP

I am writing to invite your company to become a corporate member of the Engineering Integrity Society (EIS). .

The EIS is an independent, not-for-profit organisation supported and sponsored by industrial partners such as your company. Your support is all the more important in the challenging times currently facing the engineering industry. It has never been more vital that engineering, in its many aspects, retains its vibrancy and that societies such as ours can continue to play an important role in keeping engineers up-to-date, not only to benefit current generations but for the country's future prosperity.

The Society is a registered charity and our main objective is to maintain its close links with companies such as yours to enable you to take advantage of the wide expertise available through this membership.

The EIS is committed to promoting events and publications, including an annual Instrumentation, Analysis and Testing Exhibition now in its 29th year, providing a forum for engineers, both experienced and recently qualified, to discuss current industrial needs, new technologies and to stimulate company advancement.

The EIS consists of a number of technical groups, each focusing on a particular area of engineering expertise, and is comprised of experts from industry and academia, thus embracing advances in the development and application of the latest techniques and technologies. Once a company becomes a corporate member we ask that they communicate their individual needs to the Society to enable them to gain maximum benefit from the facilities available.

The Society issues two copies of the EIS Journal each year, and is currently in the process of introducing an on-line Newsletter, which is planned to be issued four times a year. These publications are sent to corporate members, and are included in the annual membership fee.

The EIS collaborates with other engineering societies and institutions in the UK, and is developing links with similar organisations in Europe. It also hosts regular workshops and symposia which address the needs of its members and supporting companies, examples of recent events being given below:

Data Acquisition: Principles & Practice Training Course
Durability and Fatigue Advances in Wind, Wave & Tidal Energy
Cost Benefit through Failure Avoidance
Living with Ageing Plant

Engineering Integrity Society, 18 Oak Close, Bedworth, Warwickshire,
CV12 9AJ

Tel: +44 (0)2476 730 126

Fax: +44 (0)2476 730 126

E-mail: eis@e-i-s.org.uk

WWW: <http://www.e-i-s.org.uk>

Business Registration No. 1959979
VAT Registration No. GB 443 7696 18
Registered Charity No. 327121

Thermo Mechanical Fatigue
Corrosion Fatigue in Nuclear Power
Aerospace Materials in Rapid Prototyping.

Benefits of Corporate Membership are outlined below:

- 20% discount on delegate fees at EIS seminars
- 20% discount on the cost of exhibition stands, and priority selection on stand location
- 10% discount on advertisements in the EIS Journal
- The opportunity for company representatives to join any of the EIS committees
- Your corporate logo included on the EIS website, to provide a direct link to your own company website
- Corporate member names included in EIS event brochures or literature
- Free copies of the EIS journal, and on-line Newsletter, to nominated staff within your company
- The ability to place technical features in the EIS Journal or Newsletter
- To place requirements for newly qualified graduates, free of charge, in the EIS Journal and Newsletter
- your company profile in the EIS Journal

A membership form is attached for your convenience and we look forward to welcoming you as a corporate member, and your staff at our committees and events.

The annual corporate membership fee is £400.00 + VAT.

If you have any questions, please do not hesitate to contact us.

I look forward to hearing from you.

Kind regards

Trevor Margerison
Chairman, EIS
